Fiscal Year:	July 1 – June 30
Current operating budget:	\$2.34 million
Website:	www.evergreensocialimpact.org
About Us:	<p>Evergreen Social Impact is a nonprofit fiscal sponsor organization that provides fiduciary services, funds management, governance, and other administrative services to projects with social-impact missions.</p> <p>Rather than each agency bearing the cost of the full array of staff, sponsored organizations can make use of only as much administrative support as the size of their organization needs. This shared infrastructure model maximizes efficiencies and provides tools, expertise, and a community of peer learning to organizations with limited resources.</p> <p>While Evergreen Social Impact provides the needed administrative resources, leaders in our sponsored projects are better able to focus on fulfilling their missions, building organizational capacity, and improving our communities.</p> <p>Our leadership team has more than 30 years' experience in nonprofit operations. Areas of expertise include finance, governance, human resources, grants management, and philanthropy. We have a unique competence in administering complex federal, state, and local grants.</p>
Who We Serve:	<p>Washington is home to tens of thousands of nonprofit organizations, including public charities, private foundations, civic leagues, chambers of commerce, veterans' organizations, and other tax-exempt entities.</p> <p>Washington nonprofits employ hundreds of thousands of people and are a significant part of the state's workforce and economy.</p>

Our nonprofits deliver vital community services, elevate the voices of the people and communities they serve, strengthen communities, and advance solutions to shared challenges.

Board of Directors:

Peter Boach Garcia, Chair
Jarrah Macfarlane, Vice-Chair
David Gorton, Secretary/Treasurer
Jaclyn Cervantes
Obioha Okereke
Paul Tabayoyon
Nikki Torres
Alejandra Tres

Staff:

Sarah Kurtzman, Director of Finance

Board Opportunity:

ESI is working on the following strategic priorities:

- To strengthen operational infrastructure and build capacity.
- To expand our portfolio of sponsored projects.
- To build an engaged Board of Directors that will provide strategic vision and oversight, and that will support the staff in building our organization.
